Precinct 1—127 E. Kenney st.  
Precinct 2—1415 S. Michigan st.  
Precinct 3—1414 S. Lee st.  
Precinct 4—1614 S. Taylor.  
Precinct 5—1311 Prairie av.

St. Joseph county democrats will close the congressional and county campaign tonight fully confident that Sen. B. P. Shively, Congressman Henry A. Barnhart and the entire county ticket will be elected at the polls tomorrow. Leaders stated Monday that the popular sentiment to all appearances indicates a decision by the majority of the people to support President Wilson by returning both congressional candidates to Washington for another term while the state and county tickets promise to pull heavy votes throughout the entire county.

County Chairman Rudolph Ackermann stated Monday afternoon that he expected Shively and Barnhart to be re-elected with a plurality of between 2,000 and 3,000 votes. The entire county ticket will be carried by the democrats according to the prediction of Chairman Ackermann. He believes that the closest race will be for the office of auditor. Clarence Sedgwick, the present incumbent of the position, is a candidate for re-election on the republican ticket and is opposed by Arthur Wolf. Both men have a strong following throughout the county.

**Beveridge May Be Second.**  
Politicians predict that the progressives will run third in St. Joseph county with the republicans in second place. They do not appear to believe that this will be the fact over the state as it is the general opinion among the candidates that Albert J. Beveridge, progressive nominee for senator, will pass Hugh T. Miller, the republican candidate, in the race. It is practically conceded that neither of these candidates will defeat Sen. Shively as his record in congress as President Wilson's principal aide, has created favorable sentiment in his favor among members of all parties in Indiana.

E. M. Hechtel, democratic chairman of the thirteenth district, states that he is confident that his party will carry all the counties in the district. A survey of the situation will also be given by the chairman. He believes that the Wilson supporters will rally to the democratic standard at the election Tuesday.

John Kitch, one of the promoters of the independent party, which has placed a county ticket in the field, returned to South Bend today after making a speaking tour throughout the southern part of the state. Mr. Kitch was not very optimistic regarding a defeat for the democrats stating that he would not be surprised if Sen. Shively and Congressman Barnhart were re-elected by a comfortable plurality.

**Three Rallies Tonight.**  
Three rallies have been arranged by the democrats to be held on the eve of the election. W. A. McInerney will be the principal speaker at a meeting at Maytag hall on S. Chapin st. County candidates will also be present and make short talks and it is anticipated that one of the largest crowds of the campaign will attend.

## LATEST WAR BULLETINS

PEKIN, Nov. 2.—It was announced in government circles today that the German defenders of Tsing-Tau are becoming demoralized by the incessant British-Japanese bombardment by land and sea. Strong defensive works have been destroyed by the naval guns. The downfall of the fortress is likely to come at any moment as the bombardment still continues.

LONDON, Nov. 2.—Thousands of German prisoners have been captured in northwestern Belgium as the result of a daring coup by Belgian soldiers, it is reported in a dispatch to the Times a Belgian cyclist corps blew up a railway bridge cutting off a large number of Germans from their main army and thousands of the Germans surrendered to escape annihilation.

LONDON, Nov. 2.—The Rotterdam correspondent of the Times telegraphs that word has been received that there has been hard fighting going on all day Sunday near the Dutch frontier. It is reported that the allies have occupied Mariakerke, a short distance southwest of Ostend.

LONDON, Nov. 2.—The German submarine U-9 which sank the British cruisers Aboukir, Hogue, Cressy and Hawke, is in a disabled condition 15 miles off the north coast of Holland, according to a dispatch from Rotterdam. The famous submarine was disabled by her screw getting caught in a trawler net.

AMSTERDAM, Nov. 2.—Dispatches from Berlin say that the German press print official dispatches from Constantinople announcing that all the Asiatic coast of the Turkish empire has been mined and a state of blockade declared.

## ROCKEFELLER AND 20 OTHERS FACE CRIMINAL ACTION

Heads of New Haven Road Are Indicted by Federal Grand Jury for Conspiracy to Monopolize Transportation.

NEW YORK, Nov. 2.—Criminal indictments charging that they combined and conspired to monopolize commerce in the transportation business were returned today by a federal grand jury against William G. Rockefeller, Lewis Cass Ledyard, Theo. N. Vail, G. F. Baker, John Billiard and 16 other men famous in the financial and industrial world. The indictments are the result of the federal inquiry into the New York, New Haven & Hartford Railroad Co. One hundred and sixty corporations are named in the indictments.

The indictments were returned because Judge Foster who immediately issued bench warrants for the defendants. In addition to those already mentioned the other men indicted are: George M. Miller, C. D. Miller, W. Skinner, D. Newton Barney, Robert W. Taft, James S. Ely, James S. Hemmingsway, Charles M. Pratt, A. Heaton Robertson, Frederick Brewster, Henry H. Harkness, Edward D. Osborn, Thomas Dewitt Cuyler, E. D. Milligan, Francis Maxwell.

The manner in which the alleged combine was brought about was thus set forth in the indictment. "Said conspirators, taking advantage of the fact that the New York, New Haven & Hartford railroad has the only railroad of any importance leaving New York city, have conspired to bring as many common carriers and their properties and facilities, under the influence, management and domination and ownership of them as they could be able to reach from time to time."

It took the grand jury just 15 minutes to vote the indictments. The body convened at 10:30 o'clock and for 15 minutes James W. Osborn, Frank W. S. Wacker and R. L. Betts, special assistant United States attorneys were in the jury room.

Immediately after Daniel C. Underhill, foreman of the jury, had handed the indictments up to the court, Judge Foster began the issuing of bench warrants. These were given to deputy United States marshals to serve.

**REMEMBERED IN WILL**  
Hudsonville Saved Girl in Germany 12 Years Ago—Uncle Leaves \$9,000.

HUDSONVILLE, Nov. 2.—About 12 years ago Oscar Dieermann saved a little girl from drowning in one of the canals in Holland. He has just received a letter from Valienka & Welzen, attorneys at Arnheim, Holland, saying that Aaron B. Vanderbolten of Arnheim was dead and that in the will Dieermann was remembered to the extent of nearly \$9,000.

**STEAMSHIP MOVEMENTS.**  
NEW YORK, Nov. 2.—Steamers due to sail today: Franconia, Liverpool. Due to arrive today: Titania, Valencia, Rotterdam; Oregonian, Cristobal; St. Louis, Liverpool; Minnetonka, London.

**BURNED BY ACID.**  
LEWISTON, Ill., Nov. 2.—E. V. Duval, state representative, is suffering from bruises and burns as the result of his automobile jumping into a ditch here last night. Acid from the batteries furnishing the lights splattered in his face, causing deep burns.

## GERMANS KEEPING UP OFFENSIVE IN NORTHERN SPHERE

Continue Attacks in Belgium Throughout Sunday But Are Repulsed in All Places Except at Messinea.

PARIS, Nov. 2.—The Germans are keeping up a vigorous offensive, especially in the northern sphere of hostilities according to the French war office, official announcement at 3 o'clock this afternoon.

Throughout Sunday the Germans attacked in Belgium and northern France particularly between Dixmude and the Lys river. All were repulsed except those in the region of Messinea where the allies lost ground. The Germans pressed vigorously against the allies holding the arras line and against the allies at Lihons and Lequeneux-en-Santerre.

**Victory Flits from Side to Side.**  
Surging backward and forward the allies and Germans in northwestern Belgium are alternately driving and retreating along the line of battle which extends from a point near Neupont southward into France. Every inch of ground is being stubbornly contested villages are lost and retaken and entire stretches are under the control of the Germans.

The sturdy little Belgian army deserves great credit for the gallant fight it has put up against the invaders. The latest exploit of the Belgians, the cutting of the dykes along the Yser, has done more than gun powder could do in checking the Germans turning them out of their positions in the low lying country of the Flanders.

According to the official dispatches the two crucial points in the north now seem to be Ypres, in Belgium and Lille, in France. Both sides claim to have made gains in these regions, but the most important advantage is unquestionably with the French and British. German prisoners are being taken in big batches. Within the past two weeks it is estimated that nearly 25,000 prisoners were taken by the allies in northern France and Belgium. The Germans are still struggling hard against the allies' center and have made some progress north of Rheims but elsewhere their attacks have been repulsed and their lines have been weakened by counter-attacks.

**Determined to Hold Crossing.**  
The struggle still rages in all its intensity in the Meuse valley. The Germans are determined to hold their crossing over the Meuse at St. Mihiel at all hazards.

An unofficial report comes from the north of the rout of the 10,000 Germans by an armored train. The location of this exploit is not given, owing to the censorship, but the details follow.

## TURK AMBASSADOR TO ENGLAND GETS HIS PASSPORTS

Breaking of Diplomatic Relations Tamount to Declaration of War Against Sultan—Britons to Defend Suez.

LONDON, Nov. 2.—The Turkish ambassador to England was handed his passports today. This is the tantamount to a declaration of war. He announced that he would leave London tomorrow. He is expected to go to Berlin.

A Reuter dispatch from Constantinople says that Turkey has already invaded British soil. Two thousand armed Bedouins are reported to have entered Egypt.

England has made elaborate preparations to defend the Suez canal. There are a number of warships patrolling the waterway and a squadron is stationed at each end of the canal. There are more than 25,000 troops stationed in that district, supported by artillery.

**Eight Corps Mobilized.**  
Eight army corps of Turkish troops are reported to have been mobilized for the Egyptian campaign and are stationed in Palestine.

The ambassadors of the allied powers in Constantinople have received their passports. The British diplomat is expected to arrive at Salonika, Greece, tomorrow. A telegram from Sofia dated Sunday said that he had arrived at Dedagatchi by special train from Constantinople accompanied by the members of the embassy staff.

Greece has begun the mobilization of her army upon a complete war footing and will probably put a big force of Bulgarian divisions and equipped possessions, according to a press telegram.

**Mass Army on Border.**  
The following dispatch has been received by the Express from Bucharest: "Four hundred thousand Turks are massed on the Caucasian border and 300,000 more are waiting at Beirut, Jaffa and other points for shipment to the Sinai peninsula."

The formation of a Turkish cabinet in Constantinople is indicated by press dispatches from that city. Gen. Enver Pasha, Turkish minister of war and leader of the young Turks, is in absolute control. The Greek navy has already been secretly mobilized.

The latest news of a disquieting nature comes from the Balkans. It is reported that strong German and Turkish agents are at work at Sofia to line Bulgaria up on the side of Germany. The agents of the kaiser and the sultan are playing upon the feelings of Bulgarian deserters who are still smarting under the defeat administered to the Bulgarian army by Greece and Serbia.

## TURKEY'S ACTION MEANS DEATH OF OTTOMAN EMPIRE

VIENNA, (via Amsterdam and Berlin), Nov. 2.—Austria has again invaded Serbia, it is officially announced. The war office statement follows: "The Austrians on Sunday successfully attacked a strong position near Rovrye. Our troops crossed the Save and Drina rivers, which were obstinately defended by the Serbians and occupied Oranahor, Rademokone, Tabanovics and two other small towns."

In the early announcement the war office stated that a new battle had begun in Poland. The government denied that Czernowitz, an important city in Bukovina, had been taken by the Russians.

The statement on the Poland situation says: "As a result of fresh developments new battles have been fought in Russian Poland. Attacks on our positions have been repulsed, some detachments of the enemy having been annihilated. After a stubborn battle which had been in progress for several days in the district northeast of Stary and Sambo, the victory rested with our troops. The enemy, whose forces consisted of two infantry divisions and one rifle brigade, were dislodged from their positions."

"Czernowitz still remains" in our hands.

While the newspapers express deep regret at Turkey's attitude in siding with Russia's enemies they declare it makes the Turkey question possible of settlement at once and for all time.

## Compliance With Law Will Be Insisted On at Election

Strict adherence to the provisions of the Corrupt Practices act and General Election laws will be insisted upon at the election Tuesday.

Any of the old-time rough work, calculated to corrupt the ballot by intimidation, jostling of voters, or vote buying or selling, should and will be punished.

It is unnecessary to reedy the law into this warning. Common sense will tell every voter and every election official what is right and that is the law. Anything is wrong that tends to corrupt the ballot; that would deprive a man with a legal right to vote of the privilege of voting; that would admit of a man voting who has no legal right to vote; that attempts to influence anyone in their voting by threats, offers of money or reward, or the assurance of any advantage.

Only those who registered in November have the privilege of the ballot. They must vote in the same ward and same precinct where they registered. The election boards have had their instructions in their duties. It is up to them to make good. And enough has been said and written to apprise any intelligent citizen of what his duties are and is required of him.

It is merely playing with fire to attempt any funny work and the man who takes the chance and gets burned has no one to blame but himself.

The parties and the candidates have told their story. They have presented their claims and discussed the issues. The demand now is for an honest election and a truthful count and nothing else goes.

That is the position taken by the democrats. We have the assurance that it is the position taken by the progressives. It is to be hoped that the republicans, despite their desperation, will assume a like attitude and make the demand and the observance general.

## Five Shots at Dead of Night Rouse Portage Av. Residents to Fear of Murder; Only a Soldier

Five revolver shots shattered the solemn stillness on Portage av. in the vicinity of the Chapin Park pharmacy. Subsequent cries of "Help! Help!" woke the sleeping residents of that portion of the city Sunday morning at 2 o'clock to the fact that nothing short of a terrible murder had been committed in that extremely sober community.

F. J. Bickelhaupt, 712 Portage av., among others had been aroused, and while standing at an open window he heard in a subdued whisper: "Ehl! Lay low. They might hear you."

He hastily donned a pair of trousers and made for a door. When he entered the yard the sound of two men tramping over his barn floor sent him back into the house and to a telephone. But while the police were on their way out to the Bickelhaupt residence, they met Patrolman Fish and Walter McMillen, a soldier home from Texas on a furlough.

"Here is our burglar, boys," said Fish, holding on to the collar of McMillen.

Fish reported that he had heard the revolver shot and he came upon McMillen standing with the smoking revolver in his hand. McMillen pointed to the Bickelhaupt barn and declared that two bandits had hidden in there. It was his whispered warning to Fish that Bickelhaupt heard, and it was Fish and McMillen that were heard in the barn. While the police were approaching the scene, Fish had started to the station with McMillen.

McMillen claimed he had seen two men attempting to break into the Chapin Park pharmacy and had fired at them five times. All five bullets were found later imbedded in a tree close to where McMillen had been seen standing.

After a talk with Chief Kerr Monday morning McMillen was allowed to go. He stated that he was to join his regiment in Texas in a few days, leaving this city Tuesday. Upon that condition he was permitted to go without further formality.

## AUSTRIANS HAVE AGAIN CROSSED SERVIAN LINES

Franz Joseph's Troops Cross Save and Drina Rivers and Take Several Towns.

VIENNA, (via Amsterdam and Berlin), Nov. 2.—Austria has again invaded Serbia, it is officially announced. The war office statement follows: "The Austrians on Sunday successfully attacked a strong position near Rovrye. Our troops crossed the Save and Drina rivers, which were obstinately defended by the Serbians and occupied Oranahor, Rademokone, Tabanovics and two other small towns."

In the early announcement the war office stated that a new battle had begun in Poland. The government denied that Czernowitz, an important city in Bukovina, had been taken by the Russians.

The statement on the Poland situation says: "As a result of fresh developments new battles have been fought in Russian Poland. Attacks on our positions have been repulsed, some detachments of the enemy having been annihilated. After a stubborn battle which had been in progress for several days in the district northeast of Stary and Sambo, the victory rested with our troops. The enemy, whose forces consisted of two infantry divisions and one rifle brigade, were dislodged from their positions."

"Czernowitz still remains" in our hands.

While the newspapers express deep regret at Turkey's attitude in siding with Russia's enemies they declare it makes the Turkey question possible of settlement at once and for all time.

## TO HAVE CATTLE DISEASE WIPED OUT IN TWO DAYS

Dr. Houck Inspects Herd at Notre Dame Reported Infected—Order Closing Chicago Stock Yards is Modified.

## CLASH OF AUTHORITY IN ILLINOIS SITUATION

First Order of United States Officer Exceeded Power and Hasty Conference With State Commission is Called.

All cases of the hoof and mouth disease in the infected zone north and west of this city will be wiped out in the next two days.

This was the statement given out Monday noon by government officials stationed at Niles, who declared that they have the disease well in hand and that unless it spreads to new districts all cases will be wiped out by Wednesday night.

That the disease had broken out on the Notre Dame farm was the report that reached the offices of Dr. U. G. Houck at Niles Monday morning. Dr. Houck made a trip Monday afternoon to make inspection of animals at the university farm.

Brother Leo of Notre Dame purchased a carload of steers from Chicago last week and it was reported the disease was among them. Dr. Houck made an inspection of reported infected farms in German township Monday morning, but asserted that no cases could be found. A burial of the J. B. Shively herd which was condemned Saturday was made Monday and it was asserted by J. S. Borden that there are no new cases in that township.

**Three New Cases.**  
Three new cases were discovered within the afflicted zone Sunday, making the total 193. Practically every farm in the afflicted area has been examined and officials have begun the work of quarantining the farms. The second time as a precaution in the event that the disease has developed since the first inspection.

As a precaution Michigan authorities have prohibited the shipment of any stock from the Chicago yards being made to places in that state. This was the action taken following the discovery of the cases at Blissfield.

Dr. H. P. Nelson amended the second quarantine issued last week, Monday morning, to allow certain products to leave affected districts. The modification allows the movement of potatoes, vegetables, apples, small grains in cloth bags, but is still against the movement of other provisions. It was first construed that none of the products could be moved on any public highway, which would practically stop movement of any of the many food stuffs about South Bend streets and was in parts of the county not affected.

**CHICAGO, Nov. 2.**—Until further notice cattle, sheep and hogs will be quarantined for slaughter only in Chicago. Signed.

**Illinois State Board of Health.**  
"By O. E. Dyson, State Veterinarian." This official notice, posted at the stock yards this afternoon lifted the embargo that had been placed on the union stock yards two hours before by the United States government. The first order put an absolute quarantine on the stock yards. It prohibited the receipt or the shipment of cattle for any purpose whatsoever because of the fear that the dreaded foot and mouth disease would spread. The first order would have resulted in a complete closing down of the stock yards.

**Conference Brings Change.**  
Almost immediately there was a hasty conference to discuss the situation. Representatives of the stock yards, of the packers, of the live stock exchanges, members of the state board of health and the government officials were there. The conference was a long and at times a heated one. When it broke up the order was posted and the danger of the closing down of the yards was averted for the time being at least.

**Clash of Authority.**  
After the meeting adjourned the true impression of the situation came out and the reason why the order of the government officials was changed was made known.

The United States government has no authority over commerce not interstate. Its authority does not extend to prohibiting shipments of live stock to Chicago or East St. Louis, or to those points to cities and towns in Illinois.

Members of the state live stock commission and the state veterinarian refused to back up the government. They insisted that shipments from points within the state should not be stopped.

This clash of authority would have brought about a partial quarantine or embargo only. And so the modification was made. The former order of the government prohibiting the shipment of cattle to or from Chicago for purposes other than immediate slaughter is not changed. Now as the order now stands—can any live stock be shipped to Chicago from points outside.

HUNTINGTON.—The young son of Cleveland Miller of William st. was painfully injured when he accidentally caught his finger in a sausage grinder and the end was taken off.
